About Me

I am a skilled web designer and developer with expertise in front-end technologies like HTML, CSS, JavaScript, and UI/UX design. With experience in troubleshooting, software solutions, and computer hardware, I provide effective technical support. Currently pursuing an advanced diploma in software engineering to enhance my skills further.

Skills

FRONT END. UI/UX.HTML CSS.
JAVASCRIPT BOOTSTRAP -
JQUERY. Json. Troubleshooting.

Software. Web Designer. Web
Development.

Education

- Advance Diploma in Software Engineering
Aptech Learning Pakistan 07-2024 - Present
Started in July 2024 and currently ongoing, I am pursuing an in-depth diploma program at Aptech, focused on software engineering. This program equips me with practical skills in programming, database management, web development, and software design, preparing me for a career in the tech industry.
- Intermediate (Computer Science)
Karachi Board 2024 - Present
I began my Intermediate studies in 2024 under the Karachi Board, specializing in Computer Science. This academic path is helping me build a strong theoretical foundation in subjects I like programming, mathematics, and IT, which supports my ongoing diploma studies.

Experience

- Computer Technician
Rapid Computer's 2023 - Present
Motivated and skilled Computer Technician with 2 years of hands-on experience in hardware and software support at Rapid Computer. Proficient in installing and troubleshooting Windows operating systems, Microsoft Office, and PC components. Strong problem-solving skills with a focus on reliable customer service and technical efficiency.
 - Computer Hardware & Software Troubleshooting
 - Windows OS Installation & Maintenance
 - Microsoft Office (Word, Excel, PowerPoint, Outlook)
 - System Assembly & Upgrading
 - Basic Networking Support
 - Customer Support & Communication

Courses

- Computer Operator
SOS Technical Training Institute 01-01-2023 To 06-2023
From January to June 2023, I completed a Computer Operator course at SOS Technical Training Institute. This program enhanced my proficiency in operating computer systems, managing files, using office productivity software, and understanding basic IT operations, which built a strong base for my future studies and work.
- Web Designer & Web Development
SOS Technical Training Institute 01-01-2024 To 06-2024
Currently enrolled in the Web Design & Web Development course at SOS Technical Training Institute (January 2024 - June 2024), I am learning the fundamentals of front-end and back-end development. The course covers essential tools and technologies such as HTML, CSS, JavaScript, responsive design, and introductory backend logic—equipping me with the skills to design and build functional, user-friendly websites.
